

## Statement Regarding the Restriction of Hazardous Substances

This document is Radio Design Labs, Inc. (RDL) statement with regard to the directive of the European Parliament and of the council on the Restriction of the Use of Certain hazardous Substances in the Electrical and Electronic Equipment (RoHS directive).

Designated RDL products are compliant with the RoHS directive. Specifically, such products manufactured by RDL do not contain the substances listed in the table below in concentrations greater than the Maximum Limit value. Designated products are identified by the RoHS marking on the product itself and on its packaging label. Only product that is so marked is certified to be RoHS compliant. RDL's certification of compliance is based on and subject to documented data from sources including supplier certificates and statements, test lab reports, and in-house testing of material composition.

Substance	Maximum Limit (ppm)
Cadmium (Cd)	100
Lead (Pb)	1000
Mercury (Hg)	1000
Hexavalent Chromium (Cr6+)	1000
Poly Brominated Biphenyls (PBB)	1000
Poly Brominated Diphenyl ethers (PBDE)	1000

Note: The Maximum Limit does not apply to applications for which exemptions have been granted by the RoHS directive.

Name: Jeff Mason  
Date: July 1, 2006  
Position: Operations Manager

### Environmental Questionnaire Disclaimer

The information provided in this environmental statement is, to our knowledge, correct as of the date indicated on this page. However, there is no guarantee to completeness or accuracy, as some information is derived from data sources outside the company. Also, there may not be information included in this statement regarding the minute amounts of dopant and metal materials contained within the electrically active or passive devices contained within the finished product.
